Dental Screening & Fluoride Varnish Program

Teacher Instructions

1. Explain the Dental Screening & Fluoride Varnish Program to your class
   • A Dentist is coming on ____________________________
   • They are looking at your teeth only, then painting a mineral onto the teeth to make them stronger. NOTHING WILL HURT!
   • Results and referrals go home after event along with coloring books & dental supplies
2. Distribute consents to your classroom
3. Due date is set for ____________________________
   • Students may still be seen on the day of the event if they have a completed consent returned the same day but a rough total is needed to order correct amount of supplies
4. As consents come back, place them in the folder provided by Healthy Start staff
5. Mark on your attendance roster which students have returned their completed form, please return the roster with the folder
6. Encourage students that have not returned their form to bring it back as a homework assignment
7. On the due date, return forms inside of the folder to the Dental Consent Return Box in the front office
8. For any questions, connect with Healthy Start staff or The L.A. Trust Oral Health Program Manager, Hani Tajsar hani@thelatrust.org

Return completed consent forms to the bin in your front office!

Thank you!
