- This Tally Sheet is a manual log to track encounters for all events & activities. Numbers correspond to the fields on the Online Monthly report.
- **Definition of an encounter:** a face-to-face interaction in which information/statistics about health or services at the Wellness Center is shared with a young person at your school. The encounter events should be a measurable interaction.
- **Definition of an activity:** passive outreach which includes strategies such as posters, PSAs, flyers, where you can't really measure the impact.
